## Clinical Resources for Refugee and Immigrant Health

- [CareRef](#) is a tool that guides clinicians through conducting a post-arrival medical screening.
- The [CDC Domestic Medical Screening Guidance](#) provides guidance for healthcare providers who conduct initial medical screening for refugees.
- The [Center of Excellence in Newcomer Health in Minnesota](#) is a network for training and epidemiology in best practices that promote refugee health.
- [Health Network](#) ensures continuity of care for mobile patients.
