

FINDING A DENTIST

Here are some resources to help you in finding a dental home for your children:

Medicaid/Illinois All Kids

- DentalQuest is the administrator of the Medicaid dental program in Illinois.
 - If you are enrolled In Medicaid, but not In a Managed Care Plan, families can call the toll-free number at (888) 286-2447 to find providers that meets their unique needs
 - Get a list of dentists through their [website](#) OR if a provider is needed in another state, get started by selecting “Find a Provider” in the upper righthand corner of the page.
- Managed Care Members can call the phone number on the back of their membership card to receive help with finding a dentist
- All Kids or Medicaid will pay for a child to see a dentist every 6 months. Families should try to take their child to the same dentist or office for each visit if possible.

Note: Many dentists are not listed on the website and information can be out of date.

Finding Dentists

- A list of pediatric dentists by zip code can be accessed through the American Academy of Pediatric Dentistry [website](#).
- An Interactive Map is available on the Illinois State Dental Society [website](#)

Community Clinics

- The Chicago Dental Association provides a list of American Dental Association (ADA) members by area in Illinois through a search tool located [here](#). The ADA’s website to search for providers is available directly [here](#).
