

Do not eat recalled apple cinnamon fruit pouches due to high lead levels.

Brands **WanaBana**, **Weis**, and **Schnucks** are the ones we know about so far. Scan the QR code below to check your pouches or visit www.fda.gov/safety

 check here

Lead exposure in children can be hard to notice since your child might not have any symptoms or show any signs.

If you think your child might have eaten a recalled fruit pouch, let us know.

There is a test for lead poisoning and this is the only way to know for sure. Lead poisoning can cause:

- Headache
- Abdominal pain/Colic
- Vomiting
- Anemia (not having enough healthy red blood cells)
