

IMPLEMENTATION OF THE NEW ILLINOIS DISEASE SURVEILLANCE SYSTEM (IDSS)

Improving Illinois' ability to monitor, track, and respond to infectious diseases

IDPH is implementing a **new Illinois Disease Surveillance System (IDSS)** to replace I-NEDSS

HIGHLIGHTS

- A user-friendly design makes it easy to log in and complete/submit information to the local health department.
- Data collection will be centralized, with providers continuing to report cases in a timely way and providing additional follow up information, such as treatments, when available.
- Providers will have the ability to update provider reports with additional information once all mandatory information is completed. Providers can return and add follow-up data like treatments later.
- Providers can see lab results they, and anyone in their organization, submitted.

TIMELINE

IDSS Release 1:
July 15, 2024: STI & TB

*chlamydia, gonorrhea, syphilis, congenital syphilis,
Mpox, and tuberculosis*

IDSS Release 2:
Fall 2024: All Other Diseases

HOW DOES THIS IMPACT ME?

- Providers who logged into I-NEDSS between December 2022 and April 2024 and received communications from dph.idss@illinois.gov have been automatically uploaded as users into the new system. **Providers who have not received an email (latest email sent 6/12/24 with Subject: June Provider Update) will need to request access by emailing DPH.IDSS@illinois.gov.**
- Beginning July 15, as part of Release 1, **ELRs sent by hospitals** for chlamydia, gonorrhea, syphilis, congenital syphilis, Mpox, and tuberculosis will **automatically be received** into the new IDSS for local health departments to process.
- Beginning July 15, providers who **manually report** chlamydia, gonorrhea, syphilis, congenital syphilis, Mpox, and tuberculosis in the provider portal will do so in the **new IDSS provider portal**.
- After **Release 2**, provider reports related to **all diseases and conditions** will be submitted through the **new IDSS provider portal**.

TRAINING RESOURCES

Training videos and reference guides will be available in early July to assist with your transition to the new system.
