

Finding a Dental Home

Here are some resources to help you in finding a dental home for your families:

An ICAAP Program

✓ Medicaid/Illinois All Kids

- DentaQuest is the administrator of the Medicaid dental program in Illinois.
 - If they are enrolled in Medicaid, but not in a Managed Care Plan, families can call the toll-free number at **(888) 286-2447** to find providers that meet their unique needs.
 - Get a list of dentists through their [website](#) OR if a provider is needed in another state, get started by selecting “Find a Provider” in the upper righthand corner of the page.
- Managed Care Members can call the phone number on the back of their membership card to receive help with finding a dentist.
- All Kids or Medicaid will pay for a child to see a dentist every 6 months. Families should try to take their child to the same dentist or office for each visit if possible.

Note: Many dentists are not listed on the website and information can be out of date.

You can download tear off referral note pads [here](#). Members can call the toll-free number to get pads in Polish, Chinese, French and Russian by calling **(888) 286-2447**.

- [Insure Kids](#) is a great website. The Department of Health and Human Services updates the list of dental providers here on a quarterly basis.

✓ Community Clinics

- The Chicago Dental Association provides a list of American Dental Association (ADA) members by area in Illinois through a search tool located [here](#). The ADA’s website to search for providers is available directly [here](#).

✓ Finding Dentists

- A list of pediatric dentists by zip code can be accessed through the American Academy of Pediatric Dentistry [website](#).
- An Interactive Map is available on the Illinois State Dental Society [website](#).

Select Dental Providers

James Benz at Advocate Masonic - Advocate Dental Center

- A** 811 W. Wellington Ave.
Chicago, IL 60657
- P** (773) 871-2188

sees children with special healthcare needs
