Eva WeihlChildren's Librarian
Chicago Public Library

Today's Moderator

Kristen Kenan, MD, MPH Pediatrician UI Health

Assistant Professor of Clinical Pediatrics University of Illinois Chicago

Learning Objectives

Upon completion of this webinar, participants will be able to:

- Identify key community organizations and resources that support resilience in children, especially those impacted by ACEs.
- Recognize the value of partnerships between healthcare providers and community organizations to promote trauma-informed, resilience-building care for children.
- Summarize practical strategies for how to collaborate with community partners and organizations to address ACEs in pediatric populations and resilience-building in pediatric care.

Early Childhood Experiences Set the Trajectory of a Child's Life

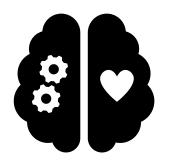

the way our genes work

the way our brains form and function

our resilience to toxic stress

our cognitive and social-emotional development

our health and well-being into adulthood

Reach Out and Read is the Antidote to ACEs

- AAP Policy Statement Recommends Promotion of Positive Relationships
- Positive Parent-Child Interactions are the Antidote to Adverse **Childhood Experiences**

POLICY STATEMENT Organizational Principles to Guide and Define the Child Health Care System and/ or Improve the Health of all Children

Preventing Childhood Toxic Stress: Partnering With Families and Communities to Promote Relational Health

Andrew Garner, MD, PhD, FAAP, Michael Yogman, MD, FAAP AD COMMITTEE ON PSYCHOSOCIAL ASPECTS OF CHILD AND FAMILY HEALTH. SECTION ON DEVELOPMENTAL AND BEHAVIORAL PEDIATRICS, COUNCIL ON EARLY CHILDHOOD

ROR Model

At routine health check ups from infancy through 5 years, Reach Out and Read-trained doctors and nurse practitioners:

- talk with parents
 about the benefits of
 reading aloud and
 engaging with their
 young children
- show them how to look at books and talk about the stories with their infants, toddlers, and preschoolers

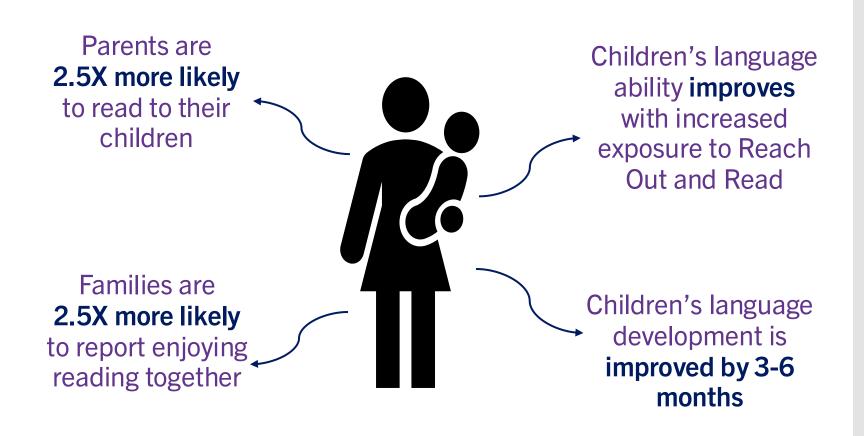

- encourage them to cuddle up, read together at home, and build routines around books
- and give the child a new book to take home and keep

During the exam, providers also use the book for developmental surveillance, observing how the child and caregiver interact with the book and each other

ROR Outcomes are Evidence-Based

Reach Out and Read is the only national early literacy organization endorsed by the American Academy of Pediatrics.

Where We Stand in Illinois

Key Indicators of Positive Early Learning Experiences
