Notice to parents and caregivers

ByHeart Infant Formula Recall

- Two batches of ByHeart infant formula have been recalled due to possible contamination that may cause infant botulism.
- Check your formula and if you have this product, stop using it and throw it away. ByHeart will replace cans at no cost.
- The batch code and use by dates can be found on the bottom of the can.

Impacted batches include:

Batch Code: 251261P2, Use by: 01 Dec 2026

Batch Code: 251131P2, Use by: 01 Dec 2026

UPC: 5004496800

Infant botulism may include: constipation, poor feeding, ptosis (drooping eyelid), sluggish pupils, low muscle tone, difficulty sucking and swallowing, weak or altered cry, generalized weakness, respiratory difficulty, and possibly respiratory arrest.

If your infant is experiencing symptoms related to infant botulism, contact a health care provider immediately.
