We know that the last few years have been tough, let's get your child back on track with their required vaccines so they can stay safe and protected this year and for a lifetime. Check out the required vaccines for children attending school in Illinois here: <https://dph.illinois.gov/topics-services/prevention-wellness/immunization/minimum-immunization-requirements.html> and then give your child's doctor a call to see how you can get caught up (it may just take one visit!)
