Measles Vaccine Quality Improvement Project

Earn Maintenance of Certification (MOC) Part 4 Points and CME credit* - **FREE**

In partnership with the American Academy of Pediatrics and the Illinois Department of Public Health, the Illinois Chapter of the American Academy of Pediatrics is recruiting pediatricians and clinic teams to join a 5-month learning collaborative and quality improvement project focused on measles vaccines. The goal of this project is to achieve measurable improvements in MMR/MMRV vaccine administration in patients 12 months-6 years old by implementing standardized clinical processes and policies, structured follow-up supported by EHR, and vaccine communication and culture using quality improvement tools. Practices must provide primary care to patients aged 12 months-6 years old in Illinois.

Benefits of Participation

- Increase knowledge regarding best practices for on time measles vaccinations.
- Improve communication around the importance of measles vaccination.
- Network and problem-solve with others.
- Earn American Board of Pediatrics MOC Part 4 points and CME credit*.

Project Requirements

Attend Virtual Sessions

And actively participate. These Fridays 12 to 1pm: 12/18/26, 1/29/27, 2/26/27, 3/19/27, 4/30/27

Submit Data

Complete monthly de-identified retrospective chart reviews and PDSA (Plan, Do, Study, Act) worksheets.

Complete Evaluation

And other project paperwork to receive MOC 4 points, if eligible.
